

Plumb Lines Teambuilding Special

Special No1

Bray & Slaughter operates an equal opportunities policy

On Wednesday 31st October, a group of personnel were taken to the 'Interbuild' Exhibition at the N.E.C. in Birmingham. In this fast paced industry, Interbuild has something to inspire everyone, with over 1200 exhibitors to choose from. This is the place 'to discover tomorrows innovations today'. Once inside the exhibition area our group could see the size and extent of what the modern building and construction industry has to offer.

Attendees were: Joe Payne, Shaun Spear, Malcolm Coombs, Danny Turley, Mike De-Courcy, Matthew McSweeney, Steve Dimery, Kelly Godwin, Louis Williams, and Leigh Johnson.

Relaxing for 10 Min or so before the next batch of Display visits

The cross section of personnel attending managed to visit the majority of stalls and gained plenty from the latest developments within the Construction Industry, with Shaun helping along the way. His vast knowledge was certainly put to the test with questions from all. Equally important everyone had some fun, especially in taking part in some of the skill base tests that some exhibitors held. On the Dewalt stand there was a competition to see who could change a wheel over in the quickest time using a Dewalt impact driver. Our very own Leigh Johnson set a very fast time of 33.8 seconds early on in the day and at 4pm was delighted when it was announced that his time had not been beaten. He came away with a top prize of a Dewalt impact drill worth £300.00. Well done Leigh!! Matthew McSweeney did equally well on the Stanley stand by beating his colleagues in hitting nails into a piece of wood in the fastest time. He won a newly developed 'Stanley' hammer. Others came away with Dewalt spirit levels, gloves and jack saws.

The day was such a success that we will definitely do similar outings in the future, with everyone eventually getting the chance to be involved.

End of the day Winners

Steve & Kelly, BUT did the best 'Man' win? !!!!

Mike Decourcy with our New Forman- Stanley!!

Malcolm discussing some finer points

with a De-person

walt Sales

Malcolm & Danny Full of Concentration just to make sure they led the way for the younger generation

Sorry about this one but it's Kelly with the women's FA Cup

Some Comments the Following Day Shaun

- I was very impressed with number of foreign countries being represented ie :- China , Malaysia , Thailand , India , Poland , Germany & Australia . Danny Turley & I met up by the timber section and looked at alternative styles and types of homes. I feel the day was a great success for all and a good learning curve, as it showed the construction industry is probably about the 10th largest industry in this country.

Louis Williams

- I never realized the construction Industry was such a big organisation

Malcolm

- Informative & educational and great fun. It's good to see the different tools that are available

Kelly

- totally interesting and a good day out

Steve Dimery

- I was very impressed with standard of doors /windows that are on the market.

Danny Turley

- It is good to see the industry are looking forward to use different types and styles of materials
